Jan Christopher Buen

Web Developer | WordPress & Full-Stack JavaScript

Silang, Cavite, Philippines | buenjanchristopher@gmail.com

janchristopherbuen.com | github.com/jan-christopher-buen

Technical Skills

WordPress: PHP, ACF, Elementor, WooCommerce, child themes, technical SEO
Full-stack: JavaScript, React, HTML, CSS, Node.js, Express, REST APIs, Prisma, PostgreSQL
Tools & testing: Git, GitHub, Jest, Vitest, Vite, Linux / WSL, Vercel, Render
SEO tools: Google Business Profile, Google Search Console, GA4, Rank Math, Yoast SEO, Semrush

Professional Experience

Web Developer | Local SEO | Ironclad Sites & affiliated businesses

Part-time, remote | Mar 2026–Present

- Build WordPress websites from scratch and manage hosting; customize child themes and ACF-editable content for business needs.
- Built rossimovestheeast.com with IDX Broker search across two MLS boards, Turnstile-protected lead forms, Google Tag Manager, and RealEstateAgent schema.
- Built ironclad-sites.com with WooCommerce subscription website plans and logo/vector add-ons, Square payments, and a custom child theme with ACF.
- Redesigned practicalexteriormaintenance.com and manage local SEO; built nexorany.com and the paversealingacademy.com application funnel with GA4 tracking.
- Implement titles, meta descriptions, sitemaps, and structured data; wrote a custom schema plugin for requirements unsupported by existing plugins.

Selected Projects

Commonroom | React, Express, Prisma, PostgreSQL | Source | Demo

- Built a social app with session authentication, follow requests, personalized feeds, posts, comments, and likes. Used database constraints to prevent duplicate likes and tested API authorization and UI behavior.

Signal Post | React, Express, Prisma, PostgreSQL | Source | Demo

- Built private messaging with participant-only API access, editable profiles, paginated history, and drafts retained during conversation switches and failed sends; verified multi-user browser flows.

Previous Experience

Technician 1, Product Engineering (Mfg.) | Analog Devices Inc. | Jun 2022–Feb 2026

Calibrated, repaired, and maintained automated test handlers; verified yield/QA failures and documented findings.

QA Engineering Aide | onsemi Philippines Inc. | Feb 2018–Mar 2021

Maintained traceable QA records, coordinated inspections and audits, and tracked corrective actions to closure.

Technical Assistant | LBG Industries Inc. | Oct 2013–Jan 2018

Verified samples, tools, and parts against blueprints and maintained product specification records.

Education

B.S. Industrial Technology, Mechanical Technology | Aurora State College of Technology | 2012
